TSC COACH EDUCATION

I am delighted to be able to launch TSC Coach Education in partnership with Sports Connect LTD. TSC will be providing Club workshops as part of the Sports Connect Coach Development Programme meaning our expert staff will be available to come and work with clubs to help them develop their coaches.

TSC has now run for more than a decade and we have built great relationships with many grassroots clubs, we have always aimed to work with clubs to help provide more opportunities for young players to receive great coaching. As the Director of TSC I am really keen for us to share our knowledge with grassroots clubs and coaches to help improve the standard of coaching in all areas, as well as create a network of coaches who are always working to help push each other to improve.

I have also been employed by the FA as a tutor delivering coaching courses which has helped me to develop my own skills as a tutor as well as create a network of excellent coach educators who are joining TSC coach education as well, each individual brings a wealth of knowledge as well as their own area of expertise to the programme.

We are also delighted to work with Sports Connect on the wider coach development programme, TSC will be delivering club workshops directly to clubs, but as well as this, all clubs and coaches will gain access to the Sports Connect Coach Development programme which will include coach masterclass sessions, coach support and mentoring opportunities, as well as creation of coaching network to share best practice and link coaches with potential jobs and careers in the game.
